“ *Again just thinking about you.. wishing you was here with us. Gracie and I know you are here having your nightly munchies with those dadgum little debbie cakes that would not open and milk. And petting our cats oh you would have had yourself a ton of fun with all the cats and kittens we have had.. I try bring them all in but really dont work I know of you was here you'd have them inside or a room especially for them. We love you grandpa and miss you so very much. Look over Dustin and keep him on the right track. And keep looking down on us and visiting when you can. If anyone else is reading this no I am not crazy it's very true.*

“ Grandpa you just dont know how loosing you has left our hearts broken. We miss you so much. Think about you daily and talk about you often. I'm sure you know about miss annie cat I can imagine you sitting up there with her in your arms. Cant say I miss her to much after you left us she would not let many people touch her. Shane and I was talking bout trying to catch the cats to bring them here just a few hours ago.. I now have 3 cats inside I know you'd love Devil, Abba, and Opie. I have 5 more outside I know if you was here you'd have them inside or build them nice cozy beds outside. We also have a new dog you probably wouldnt like. Lol kidding. We lost our basset and happy dog.. Give grandma Jean, Neal, Grandmother Peggy, also my Granny and mom too. I know you're still with me, I see you at times and hear those debbie cakes. I talk to you allot wish you could answer me. Sometime I'm mad because you left us, I try not to be cause I do know you are where you want to be with Grandma Jean and Neal.. Love Always Valerie & Shane
